

Upright Chillers - Series Glass Door

Upright Chillers (+2 to +4) are used in commercial places such as hotels, restaurants, QSR's and cafeterias across the country. These chillers come with generous cabinet volumes and excellent cooling efficiency which considerably reduces running cost. The chillers are extremely reliable and are backed by prompt service at local level and all this at very attractive prices.

Model	Door	Overall Size w x d x h (mm)	Capacity (Litres)	Temp °C	Electrical Rating (V / Ph / Kw)
UCG 600 HD	2	720 x 820 x 2100	600	+2 to +4	230 / 1 / 0.44
UCG 1300 HD	4	1405 x 820 x 2100	1300	+2 to +4	230 / 1 / 0.59

FEATURES

- Forced draft cooling
- GN size cabinet with sturdy stainless steel construction
- Automatic defrost cycle
- Self closing doors
- Lockable half doors
- Coved corners
- Designed to operate at up to 43°C ambient
- 3 non corrosive wire shelves for 600 Litres model and 6 shelves for 1300 Ltrs model

TECHNICAL SPECIFICATIONS

- R134a refrigerant
- Digital temperature controller
- Exterior in 430 grade SS Sheet
- Interior in 304 grade SS Sheet
